

PLANT SELECTION FOR VERGES

Note: Please advise Trevor Taylor of City of Joondalup (9400 4000) before installing plants on verge so street trees (if applicable to your Lot) can be installed prior.

A plan of the verge showing planting, paving etc must be submitted to EDC prior to construction, for approval.

If you would like EDC to consider another plant type, please contact the EDC Project Manager (9389 8222) so the plant type can be assessed in line with the Harbour Rise design vision.

CREEPING BOOBIALLA
(Myoporum parvifolium)

LAVENDER
(Lavendula Stoechas)
